

Intel® NUC

Digital Kiosk Building Block.

Delivers Flexibility and Customization.

The Shape That Fits the Future.

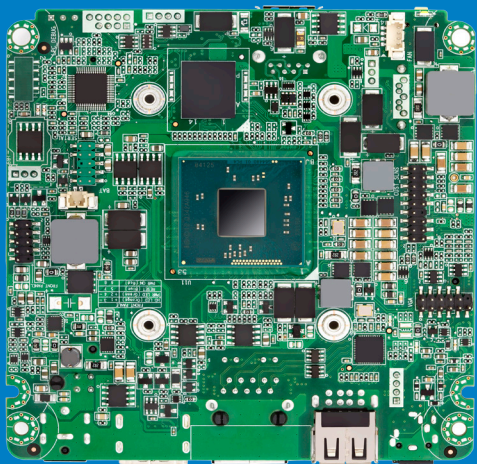

Intel® NUC

Digital Kiosk Building Block.

YOUR DIGITAL KIOSK SOLUTION

Whether you're building a house, a business, or a digital kiosk, you have to start with the right building blocks. And there's no better building block for creating digital kiosks than the Intel® NUC. The unique combination of innovative technology—including HD Graphics—lets you power kiosks, POS systems, and entry-level digital signage. The Intel NUC is a pint-sized powerhouse for value-conscious businesses.

GET IT ON-BOARD

With 4 GB of on-board storage, running a small-footprint OS and apps is more affordable than ever.

HEAR THAT?

Lower power usage means a quiet system with no need for a fan.

DUAL FULL HD VIDEO PLAYBACK

No compromise video performance, with dual-screen full HD (1080p) playback.

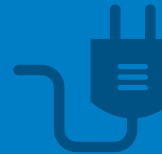

WATCHDOG TIMER

Automatically resets the system if anomalies occur, so your clients can stay up and running.

FEEL THAT?

With eDP touchscreen support for the user experience customers expect.

12V~24V DC WIDE-RANGE VOLTAGE

Unregulated or dirty power source? You can handle it.

INTERNAL SPEAKER SUPPORT

Multiple audio options for flexibility and customization.
