

Intel® NUC

For Digital Signage.

Proven performance. Exceptional value.

The Shape That Fits the Future.

Intel® NUC

For Digital Signage.

YOUR DIGITAL SIGNAGE SOLUTION

No matter the size or stage of your clients' businesses—from a small office to a mid-sized business—they all have a story to tell and an audience to reach. And there's truly no better way to reach people than through amazing HD graphic visuals. With the Intel® NUC, your customers can benefit from the full-color high definition images and information that the Intel NUC provides along with the added flexibility required to adapt to changing demands. The Intel® NUC Kit DE3815TYKHE and Intel® NUC Board DE3815TYBE provide an ideal combination of power consumption, performance, features, and affordability to drive light digital signage solutions.

DUAL FULL HD VIDEO PLAYBACK

No compromise video performance, with dual-screen full HD (1080p) playback.

HEAR THAT?

That's the sound of no fan—for a system where acoustics and reliability matter.

WATCHDOG TIMER

Automatically resets the system if anomalies occur, so your clients can stay up and running.

4 GB
STORAGE
ON BOARD

4 GB STORAGE ON BOARD

Gives clients the option to run a small-footprint OS and apps without the need for an SSD or HDD.

2.5" DRIVE SUPPORT

Enable low-cost or cavernous storage options.

VESA
MOUNT

VESA MOUNT

Create a simple VESA-mounted 2 in 1 or reduce clutter in cramped spaces.
